

PayPerCall.com

Turn telephone calls into revenue!

PayPerCall.com

Needs

- Charge callers on a *per call* basis.
- Efficiently distribute calls to your operators at various locations.
- Eliminate the need for additional telecom equipment.
- Flexibility to easily expand as call volume increases.
- Prompt hassle-free payments.

Solution: PayPerCall.com's automated telephone billing system

Features

- Real-time billing and credit card authorization system.
- Forwarding of live calls to multiple telephone lines.
- Web based software automates and tracks entire process.
- Handle 99 simultaneous calls with the ability to expand as needs arise.
- Set the maximum time allowed for each call.
- Per minute calls and / or flat rate calls.
- Set the business hours of operation.
- Direct deposit revenue into your each month.

How it Works

We've designed the most advanced interactive telephone payment systems available.

- PayPerCall.com will set you up with a dedicated 888 telephone line.
- When a customer calls they will hear your greeting which tells them who you are, what you are offering, and the cost of the call.
- Callers will then be prompted to enter their credit card information. The funds are verified, preauthorization is obtained, then the call is forwarded.
- At the completion of the call, we will calculate the total minutes, and finalize the transaction.
- Login and check your earnings in real-time.
- Our system is 100% turnkey. The computer programming, hosting, billing, software, and customer support are all taken care of by us.

It's that easy!

Billing Options

You decide how much to charge for your service.

Choose your billing preference:

- **Flat Rate Billing** - Charge callers on a per call basis

Examples:

\$20.00 per call

\$25.00 per call

\$30.00 per call

\$34.95 per call

- **Per Minute Billing** - Charge callers on a per minute basis

Examples:

\$1.99 per minute

\$2.99 per minute

\$3.99 per minute

\$4.99 per minute

- **Custom Billing** - Combination Flat Rate and Per Minute Billing

Pricing

\$799 One-time setup fee

\$50 per month maintenance fee (one extension)
